

Waterpik ® Ultra Cordless Dental Water Jet

Lightweight, cordless and easy to use, the Waterpik ® cordless dental water jet just makes healthier gums easy and simple. This product is ideal for people with braces. The orthodontic tip is three times more effective in removing plaque bacteria

Benefits

- Clinically proven to be up to 93% more effective than dental floss at improving gum health
- Removes bacteria deep between teeth and below the gum line where brushing and flossing alone would not reach
- Massages and stimulates the gums
- Can be used with your favorite mouthwash
- Leaves a clean fresh sensation

Product Features

- Push button dual pressure control system with low for sensitive gums and high for deep cleaning
- Reservoir can be filled without removal
- Convenient recharging power supply
- No batteries needed, it stays charged for approximately one week
- Easy to store when not in use
- Tips rotate 360 degrees to reach all areas of the mouth
- Reservoir capacity is 7oz or 210ml
- Pressure range is 45-75 psi
- Two Year Warranty
