

Oral-B ProfessionalCare 8850

Inspired by dental professionals

The Oral-B ProfessionalCare 8850 is inspired by dental professional for outstanding cleaning, exceptional whitening and polishing, and healthy teeth and gums. Its 3D Cleaning Action technology features 40,000 in-and-out pulsations per minute to gently loosen plaque, and 8,800 back-and-forth oscillations to sweep plaque away, helping to keep your mouth healthy.

- Removes up to 97% of plaque from hard-to-reach areas
- Naturally whitens teeth in 21 days
- Removes even coffee and tea stains by polishing teeth
- Improves gum health by helping to prevent and reverse gingivitis
- Helps you brush for two minutes

FEATURES

- **3D Cleaning Action:** 40,000 pulsations per minute loosen plaque and 8,800 oscillations per minute sweep it away
- **Customized speed control:** Lets you control how fast the brush head moves, for your comfort level
- **Compact round brush head:** Inspired by dental professionals to surround each tooth for a thorough clean
- **Comes with up to four dentist-inspired attachments**
 - Precision Clean Brush Head: Surrounds each tooth for a deep clean
 - Pro White Brush Head: Contains a special polishing cup to whiten teeth by removing surface stains
 - Dual Clean Brush Head: Combines two brushing motions for total cleaning, freshening and gum care
 - Sensitive Cleaning Brush Head: Provides thorough cleaning for sensitive teeth and gums with extra-soft bristles
- **Professional timer:** Two-minute timer with 30-second intervals makes it easy to track how long you've been brushing each quadrant of your mouth and helps you reach the dentist-recommended brush time
- **Pressure sensor:** Stops pulsations when you brush too hard
- **Unique three-bristle system**
 - Precision clean bristles: bend for gentle brush
 - Long Interdental Tip bristles: Clean deep between teeth
 - Indicator® bristles: Fade halfway to signal when to replace your brush head
- **Brush head Storage:** Ensures proper hygiene for four brush heads
- **Replace brush head alert:** Signals when you need a replacement
- **Rechargeable:** No need to replace batteries
- **Full-Charge indicator:** Lets you know when to charge your brush
