\*vs. Oral-B Precision Clean, Oral-B's leading electric toothbrush brush head/whitens teeth by gently removing surface stains

\*\* Does not replace flossing

+ Time spent brushing with excessive force

## FEATURES

- 3D Cleaning Action: Oscillating-rotating technology pulsates to loosen plaque and oscillates to sweep it away
- SmartGuide wireless monitor: Receives signals from the Triumph toothbrush to provide while-you-brush feedback

Brushing guide: Helps guide you through the four areas of the mouth so it's easy to complete our recommended cleaning time of 30 seconds per section

Professional timer: Two-minute timer with 30-second intervals makes it easy to track how long you've been brushing

Replace brush head alert: Signals when you're 10 days away from needing a replacement

Visual pressure sensor: Notifies you when you're brushing too hard

Digital clock: Acts as a clock when not in use

- Four customized brush modes

Clean: Provides ultimate plaque removal for the confidence of exceptional whole-mouth cleaning every day

Message: Gently stimulates gums

Polish: Gently removes stains for naturally whiter teeth and a beautiful smile

Sensitive: Offers a more gentle approach toward getting a thorough brushing for your teeth and gums

- Micropulse bristles: Sweep away food and plaque
- Multiple attachment brush heads with compact, round design

Pro White™ Brush Head with polishing cup: Dentist inspired to help naturally whiten teeth in only 21 days\*

Oral-B FlossAction™ Brush Head: Gently penetrates between teeth to sweep away plaque for a floss-like clean\*\*
